seminar room 211 BITEC, Bangkok, Thailand

# Packaging in the Circular Economy: a Sustainable Business

*Southeast Asia is one of the world's fastest growing regions. Asean has done much to promote industrialization and economic growth. But development has come at a heavy price. The consumption-oriented model of progress, responsible for the climate crisis, has led to ever-growing volumes of waste. So, what is the solutions?*

*Circular economy is an alternative to a traditional linear economy (make, use, dispose) in which we keep resources in use for as long as possible, extract the maximum value from them whilst in use, then recover and regenerate products and materials at the end of each service life.*

## Topics covered:

- What is Circular Economy?
- Circular Economy package & product design
- Circular advantage - Innovative business model
