

A Three Day Intensive Training Course:

Global Food Packaging Technology & Trends

Roles, Materials and Environmental Issues

25-26-27 April 2018

Grand Savero Hotel, Bogor

Greetings!

The Indonesian Packaging Federation / IPF along with the World Packaging Organization / WPO and Asian Packaging Federation / APF, invites you to join a three day intensive training course on: Global Food Packaging Technology being held in Grand Savero hotel Bogor, West Java, Indonesia from 25-27 April 2018.

This training will address principles of packaging function and requirements including safety aspects, food contact and barrier properties, technology, trends and future prospective. The importance of packaging in supply chain, environmental issues and legislative issues also will be discussed in this training course, it involves theory, demonstrations and hands-on experiences along with presentations by packaging industry representatives.

This course would have seasoned international consultants from WPO representatives - Mr. Kishan Singh, Institute of Packaging SA and others Indonesian trainers.

WHO SHOULD ATTEND ?

This training course is created for packaging converter and brand owners such as: food producers, and others related products. Individuals interested in gaining and/or expanding their knowledge in food packaging development. It is appropriate for professionals from the following roles: Packaging Development, Packaging Specialist, Packaging Managers and Engineers, Operations Managers and Directors, R&D Managers, QA/QC, Exporters, Supervisor, Purchasing Manager, Marketing Manager, Product development, Processing & engineering, Regulatory/Legal, Market research, Technical services, Entrepreneurs who are involved in packaging, including research institutions, or modern trade companies whose need to capture competitive advantages.

The World Packaging Organisation is a non-profit, non-governmental, international federation of national packaging institutes and associations, regional packaging federations and other interested parties including corporations and trade associations. The WPO's main objectives are to work through the national packaging organisations and other members and interested parties to:

• Promote globally the development of packaging technology, science and engineering • Stimulate development of packaging skills and expertise • Encourage communication concerning packaging technology, applications and achievements • Provide a forum for those organisations interested in furthering the state of the art of packaging • Monitor and communicate with its members concerning packaging-related issues such as consumer safety, food preservation, and environmental impact • Assist in the creation of conditions that will help optimise the conservation, preservation and distribution of food-stuffs and other packaged products • Contribute to the development of international trade • Advise on the formation and operation of national packaging organisations and institutes • Provide information on sources of packaging knowledge, etc.

"Better Quality of Life, Through Better Packaging, For More People"
