

a two-day Intensive Workshop: Packaging Innovations & Trends in Pharma Industry

Date : 24-25 October 2018

Time : 09.00 - 17.00

Venue : i3L Building, Jakarta

organised by:

member of:

A two-day intensive packaging workshop will cover all about pharmaceutical packaging, like other packaged goods, pharmaceuticals packaging need to be in such a manner that it will provide speedy packaging, protection, identification, product quality, patient comfort, display and needs of security. The guideline for stability study, a systematic approach and a case study about Track & Trace, it is becoming increasingly important. On the one hand allows tracing an increased product safety - which is why the legislators of the pharmaceutical industry makes the use of technology to duty - the other result from the proper use of the resulting data stream also increases in efficiency as a targeted marketing.

Roland Krebs
